

2-Wheel Hand Trolley

Builder's Hardware

MAX WORKLOAD
UP TO
230KG

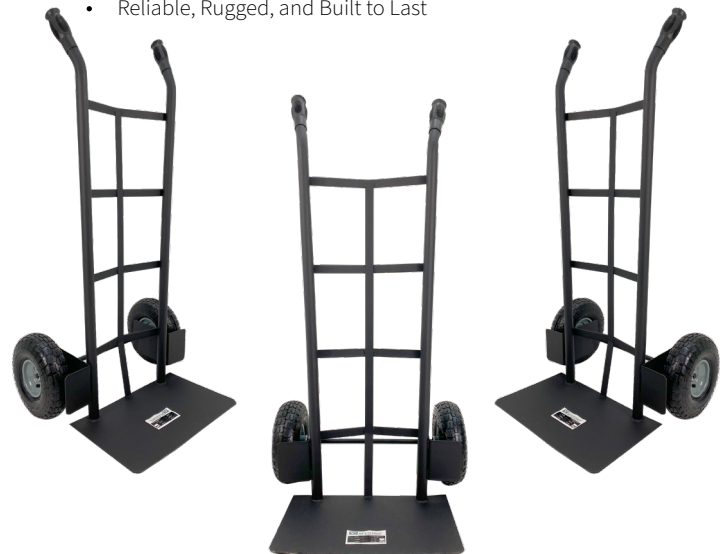

M03-P1200BA BODY FRAME - MATT BLACK

Used in a wide area of application like home, office, railways, airport, hospital, resort, and construction industries and in manufacturing industries.

Designed with an L-shaped ledge on two wheels, the ledge acts as a platform for the load. The user can then tip the truck back and maneuver heavy loads of 230kg or more with ease, by hand. They are an essential tool in warehouses, factories and many other work environments.

FEATURES & BENEFITS

- Highly economical and extremely affordable
- Reduce the likelihood of injury
- Just as Versatile as Any High-Tech Purchase
- Reliable, Rugged, and Built to Last
